

Laboratory Research Grade Dermorphin 5mg Lyophilized Powder (Vacuum Stabilized)

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: HBY
- Certification: COA
- Model Number: HBY-Abaloparatide
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg
- Delivery Time: 3-5 work days after your payment
- Payment Terms: T/T
- Supply Ability: 5,000 boxes /month

Product Specification

- CAS: 77614-16-5
- Form: Lyophilized Powder
- Amount: 5 Mg Vial
- Sequence: Tyr-D-Ala-Phe-Gly-Tyr-Pro-Ser-NH₂
- Formula: C₄₀H₅₀N₈O₁₀
- Molecular Weight: 802.9
- Use: Research Use Only
- Store Temp: -20°C

Product Description

Demorphin

Demorphin is an opioid peptide originally discovered in the skin of amphibians; it exerts analgesic and antinociceptive effects by acting as an agonist at μ -opioid receptors (μ ORs). In animal models of thermal, mechanical, and chemical pain, demorphin increases the pain threshold.

Product Information

CAS Number 77614-16-5

Purity $\geq 96\%$

Molecular Formula C₄₀H₅₀N₈O₁₀

Molecular Weight 802.88
