Our Product Introduction

Product Description

Palmitoyl Pentapeptide-4 10mg – High Purity Peptide

Product Name: Palmitoyl Pentapeptide-4
Specification: 10mg
Product Type: Synthetic Peptide
Category: Cosmetic Peptide / Skin Care Research

Product Description

Palmitoyl Pentapeptide-4 is a synthetic peptide composed of five amino acids linked to a palmitoyl group. It is widely studied in cosmetic science and skin care research, particularly in areas related to skin aging, collagen-associated processes, and skin appearance.
This peptide is of interest in research involving skin firmness, fine lines, wrinkle appearance, and skin elasticity. Its lipid-modified structure is designed to improve its compatibility with oil-containing cosmetic formulations.
Each vial contains 10mg of Palmitoyl Pentapeptide-4, making it a convenient specification for cosmetic formulation research, ingredient evaluation, and laboratory studies.
